2017-2018 Academic Course Selections

Dear Parents/Guardians,

Attached to this letter you will find an academic course selection form for the 2017-2018 school year for your child. This form contains your child's current grades in their academic courses this school year as well as course/subject specific teacher recommendations as to the courses your child should register in next year. In order to ensure your child sees the most success in their High School program, teachers have reflected on your child's academic progress this school year and recommended them for appropriate courses for the next school year. Please note that these recommendations are based on work ethic, attendance as well as overall demonstrated academic ability.

We ask that you have a conversation with your child regarding their current grades as well as the courses they are recommended for next year. Please complete the form by circling the academic courses you wish your child to register in (right hand column of the form), sign and date the bottom of the form and return it promptly to the school.

Thank you in advance for participating in the academic course selection process. As always, if you have any questions or concerns please feel free to contact me at the school.

Yours in Learning,

Deanna Fidelak, Assistant Principal
